Job Description

Responsibilities

• Compute dimensions and tolerances of machine parts, including corrections needed to achieve accurate bends and dimensions in accordance with drawing specifications
• Measure and lay out work pieces in preparation for assembly
• Read and interpret engineering drawings, blueprints, charts and tables to plan machining operations
• Repair machine tools and parts, including performing preventative maintenance, general housekeeping, and determining when repairs or new equipment are needed
• Set up and adjust production machineries/tools to complete fabrication in accordance with established time standards
• Fit and assemble components and machine parts to close tolerance
• Maintain, repair and calibrate precision measuring instruments (e.g., verniers)
• Document and report deviations from specifications and tolerances, and ensure the identification process for components is followed
• Maintain inspection records and complete inspection reports, including “first-off” inspections of components against drawings and completion of manufacturing process documentation
• Verify dimensions of parts machined using precise measuring instruments (e.g., micrometres, calipers)
• Set up and operate conventional and computer controlled machine tools, including loading, running, and modifying CNC programs, and programming CNC operations from technical drawings and blueprints
• Verify dimensions of products for accuracy and conformance to specifications using precision measuring instruments

Why Choose State Window Corporation

• Comprehensive health, dental, and paramedical benefits from day one
• Wellness program and team-building opportunities that support a positive work environment
• Relocation costs covered by employer

About the Company - State Window Corporation

State Window Corporation is a glazing and building envelope contractor based in Vaughan, Ontario, operating under NAICS 238150. The company specializes in the supply and installation of aluminum windows, doors, railings, and glass systems for residential and commercial construction projects across the Greater Toronto Area.

As a glazing contractor, State Window Corporation works directly on construction sites and building projects, delivering finished glazing and envelope solutions to builders, developers, and general contractors. The company's in-house operations support the preparation and customization of glazing products prior to installation, which is standard practice for contractors in this trade.

Who Can Apply for This Job?

You can apply if you are:

- A Canadian citizen
- A permanent resident of Canada

Do not apply if you are not authorized to work in Canada. The employer will not respond to your application.
